

Please amend claim 1 as follows:

Sub B1
A1
1. (amended) A method of decreasing muscle protein catabolism in an individual having a severe burn, comprising the step of administering to said individual a pharmacologically effective dose of a beta-adrenergic antagonist.

Please amend claim 7 as follows:

A2
7. (amended) The method of claim 6, wherein said propranolol is administered intravenously in a dose of about 1 mg/kg of the body.

Please amend claim 9 as follows:

Sub B2
A3
9. (amended) A method of decreasing muscle protein catabolism in an individual having a severe burn, comprising the step of administering to said individual a pharmacologically effective dose of propranolol.
